

## FAST Field Session Proposal

Fast Enterprises (FAST), LLC is a tech consulting company that works with government agencies to implement our tax, driver services, vehicle services, and unemployment insurance software. Our software helps agencies reduce costs, improve service, maximize revenue, and better serve the needs of their communities. Originally formed in 1997, FAST is now active on 60 sites across the globe and has grown to exceed 1,000 employees. FAST has been named one of the “Best Places to Work” by Glassdoor and is one of Fortune Magazine’s “100 Best Medium Workplaces” for 2016.

### Background

As our FAST family continues to grow, we strive to maintain a fun, close-knit culture inside and outside of the office. However, FAST employees (FASTies) are finding it more challenging to get to know their coworkers, both new and veteran, as our numbers continue to increase. To help connect FASTies throughout the company, we want to develop an internal web-based employee directory that would give FASTies the resources to put names to faces and help newbies integrate into their team, and the company, faster.

### Project Description

The objective of this project is to develop a website that will help FASTies connect and learn more about one another. We are looking for creative individuals to help design a solution that meets the needs of our growing workforce.

A successful project will meet the following base needs:

- Be a website with CSS that is accessible from a computer, smartphone, and tablet.
- Have security restrictions making it only accessible to active FAST employees.
- Provide profile functionality that would allow for basic employee information including a photo, worksite location, university and/or hometown, and fun facts or interests.

## Where You Fit In

FAST is looking for a team of 3 to 4 engineering students who are creative problem solvers with an interest in programming. Students will have flexibility to work at their preferred location, including the option to work at FAST headquarters in Centennial, CO.

## Student Benefits

Opportunities for a summer internship are possible if a student shows a strong talent and determination towards problem solving. Additionally, FAST is always hiring and on the lookout for individuals to join our growing team!
